### The Adara Hotel, Whistler

There's something about a **loft bedroom** that brings out the kid in even the most mature. And for actual kids? Up, down, up, down. And then sound asleep. Nice. **Whistler's Adara Hotel** boasts many loft rooms and **funky decor**. It's also **pet-friendly** and centrally located. (Being right across the street from the [Bearfoot Bistro](#) is also a huge plus..) We loved the red, brown, leather and wood style in every area of the **Adara**. The lobby's rundlestone walls, shiny red vinyl sofas and wine bar made for a contemporary and stylish atmosphere. (The music was so funky I wish I could have bought the playlist.) With wireless access,

super-soft linens, furry bedspreads and valet service, it might just be the next place for a Mommy Retreat.
