## DEAL » WHISTLER SANS SNOW

Whistler is a world-class destination, but at times you can find bargain prices – like now. Whistler has four golf courses and the Whistler Mountain Bike Park opened this month with 16 trails. The Adara Hotel in Whistler Village is charging an early-summer rate of \$79 per night for any room at the 41-bed property through June 29. Accommodation ranges from deluxe queen rooms to loft-style suites, each featuring walk-in rain showers, electric fireplaces and artful design details, all with views of the mountains. The property is in a secluded corner at the centre of the village and features a spacious pool deck and hot tub. A two-night minimum applies to certain dates. For more information or to book, call 1-866-502-3272 or visit [www.adarahotel.com](http://www.adarahotel.com).
